

Join us in our efforts to keep  
a part of living history alive

Since 1960, volunteers have been preserving the history of electric trolley cars in Rockhill Furnace, PA. Trolleys played a significant role in helping build many cities throughout the United States. Our volunteers are responsible for the operation, development, and maintenance of Rockhill Trolley Museum.

## HOW CAN YOU HELP?

### **Trolley Operations**

- You can learn how to become a trolley operator! If you like talking to people and/or learning about the history of the trolley industry, this is a great opportunity for you!

### **Restoration**

- Help us restore and maintain our fleet of trolley cars. If you have mechanical, electrical, and/or woodworking skills, we can find a task for you! Don't have these skills but would like to learn them? Our skilled volunteers can teach you!

### **Buildings and Grounds Maintenance**

- We have everything at our museum just like your home. This may include, but not limited to, plumbing, electrical, miscellaneous repairs, grass cutting, and/or equipment servicing.

### **Gardening**

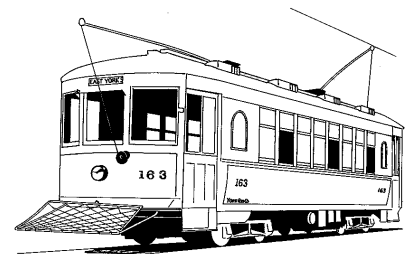

- We have flower beds to upkeep and always welcome new ideas.

### **Museum Store**

- Do you enjoy meeting people and want to help sell merchandise? You can do this in the comfort of air conditioning in the summer on those hot days!

### **Promotion**

- Do you enjoy taking pictures? Can you create and edit videos? Do you have a knack for doing promotional jobs? Contact us for additional information.
